

## Product Datasheet

### Anti-h D-Dimer 1404 SPTN-5 100479

|                            |                                                                                                    |
|----------------------------|----------------------------------------------------------------------------------------------------|
| <b>Product Name</b>        | Anti-h D-Dimer 1404 SPTN-5                                                                         |
| <b>Catalog Number</b>      | 100479                                                                                             |
| <b>Description</b>         | Monoclonal mouse antibody, cultured in vitro under conditions free from animal-derived components. |
| <b>Tested Applications</b> | IT, FIA                                                                                            |
| <b>Brand</b>               | Medix Biochemica                                                                                   |
| <b>Form/Appearance</b>     | Liquid, may turn slightly opaque during storage                                                    |
| <b>Concentration</b>       | 5.0 mg/ml (+/- 10 %)                                                                               |
| <b>Storage</b>             | +2-8°C                                                                                             |
| <b>Isotype</b>             | IgG1                                                                                               |
| <b>Clonality</b>           | Monoclonal                                                                                         |
| <b>Epitope</b>             | N/D                                                                                                |
| <b>Purity</b>              | ≥ 95 %                                                                                             |
| <b>Associated Products</b> | Native D-Dimer 200-09, 200-12 and 200-13                                                           |
| <b>Buffer</b>              | 50 mM Na-citrate, pH 6.0, 0.9 % NaCl, 0.095 % NaN <sub>3</sub> as a preservative                   |
| <b>IEF Profile</b>         | 6.8-7.5                                                                                            |
| <b>Cross Reactivity</b>    | Does not recognize human fibrinogen                                                                |
| <b>Specificity</b>         | Antibody recognizes human D-dimer                                                                  |
| <b>Shelf Life</b>          | 36 months                                                                                          |
